2014 Poehlman Award

The Regional and Technical Section Affairs Committee has selected the Ohio Valley Section as the recipient of the 2014 Poehlman Award. The Section has made an admirable effort towards promoting the art and science of spectroscopy. It teamed with other organizations to promote education through sponsorship of awards at the junior high and high school levels at the Montgomery County Science Day, and at the undergraduate and graduate levels at a poster session co-sponsored by the ACS-Dayton section. It has sponsored academic seminars at Wright State University and a workshop on laser diagnostics at Wright-Patterson AFB. Its work provides an excellent example of what a smaller section can accomplish with targeted collaboration to maximize the impact of a relatively small number of members.

Sincerely,

Robert Lascola, Chair

Brian Dable
