

Speed Mentoring at PITTCON 2020 in the Networking program

The speed mentoring session held on Thursday the 5th of March at PITTCON 202 in Chicago from 10:30-12:00 in room W185D at the McCormick Center. The session is supported by Coblenz Society and the Society of Applied Spectroscopy. We are in need of both Mentors and Mentees and would like everyone to encourage people to attend for the Speed Mentoring Networking Session number 7-27 (<https://s23.a2zinc.net/clients/pittcon/pit20/Public/SessionDetails.aspx?FromPage=Sessions.aspx&SessionID=2258&SessionDateID=5>) and sign up at the Coblenz web site <https://members.coblenz.org/Events>

Speed Mentoring is a fun, fast past session that enables a structured interaction with a dozen or more analytical chemists from various industries, academia, and government labs that enable the mentees to get an understanding of what it's like to work in those areas. These interactions can be the basis of an ongoing mentoring relationship session and is a wonderful networking opportunity for job hunting or just getting a better understanding of life as an analytical chemist.
