Newsletter Editor's Report: Fred Haibach

August 2015

The Newsletter has been created monthly since the last report in March 2014. We continue to strive to create an accurate and timely newsletter.

The Newsletter Committee is now composed of myself as Chair and Jacob Shelley. Jake has accepted the responsibility of developing the interviews proposed in March 2015.

News is slowly changing from a "pull" to a "push" model. I applaud the members of the EC that are making contributions, especially during the summer dearth as we prepare for SciX.
